Sintex
SAAF. SAFE. SAHI.

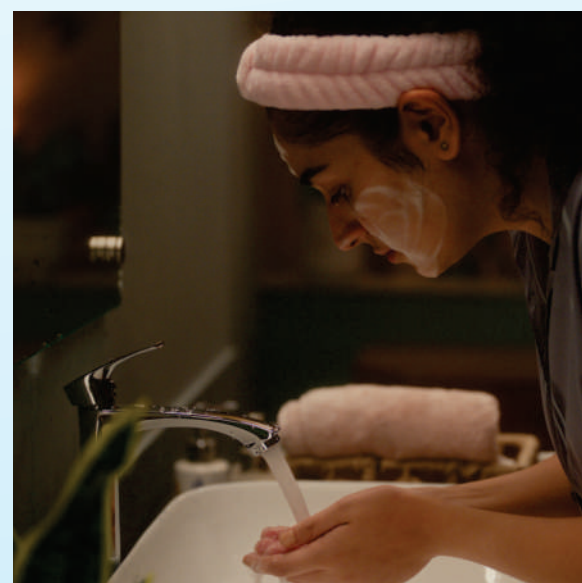

**Next-Gen
Water
Management
Solutions**

SAFEGUARDING WATER, PROTECTING FAMILIES

As the pioneers in water storage solutions, Sintex believes in thinking innovatively and making life simpler for you. Our comprehensive range of products have been designed to do just that, with your needs in mind.

Crafted from 100% virgin and food grade materials, our tanks are built to last and maintain the highest standards of hygiene and technology that keeps India's water **Saaf, Safe and Sahi.**

Know more about our range of water storage solutions.

POWERED BY THE WELSPUN LEGACY

Welspun has successfully forayed across businesses like home textiles, advanced textiles, flooring solutions, retail, infrastructure, warehousing, line pipes, DI pipes, stainless steel & alloy, pig iron, TMT rebars and more. Keeping customer-centricity at the core, we are present in 50+ countries with a team of 30,000+ committed employees.

Our comprehensive and ever-expanding global presence enables us to leverage our business associations with a marquee of esteemed clients, especially in sectors like retail and Oil & Gas. We are partners by choice in some of the most challenging projects for the largest players globally.

Welspun is now the wind beneath our wings. It is a legacy that combines with our strengths to create an absolute world class organization, delivering a global product. Powered by Welspun, Sintex is today – a pioneer and a torch bearer of health and hygiene. A name that an entire country trusts and looks up to. An icon that through its past commitment and future forward thinking straddles both India's nostalgia and India's rise into a new age.

Here's to delivering innovations that are SAAF, SAFE, SAHI – to India and the world, with SINTEX.

We have presence in over
50 Countries

Strong team of
30000+ Employees

Group revenue
US\$ 5 billion

Water Tanks | Community Panel Tanks | Underground Water Tanks
Septic Tanks | Sewage Treatment Plants

THANK YOU INDIA

- Leading Water Tank Brand of India since 50 years.
- 200 litres to 16 Lakh litres of tank capacity for Retail & Commercial usage.
- Category creators & leaders with top class Quality & Innovation.
- Sintex is now a part of Welspun World, a \$5 billion Indian conglomerate.

4P PRODUCT RANGE

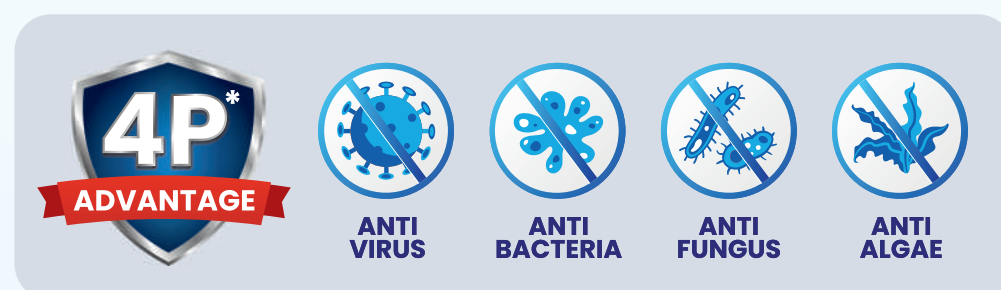

With unique health advantages.

PROBLEM

The water stored in ordinary tank does not always remain safe for various household usage because it further develops fungus, algae, bacteria and virus.

SOLUTION

Sintex Water tanks comes with unique **Active Silver technology** that provides **4P Advantage** – Protection against Virus, Bacteria, Fungus & Algae

Sintex Water storage tanks come with “**Active Silver Technology**” that provides unique Anti-microbial layer that protects growth of pathogens under stored water condition.

SAAF PAANI, SAFE FAMILIES, SAHI HAI SINTEX

- Antibacterial activity and efficacy tested under lab conditions on representative organisms (S. Aureus ATCC 6538) as per JIS Z 2801 standards
- Anti-Virus activity and efficacy tested under lab conditions on representative organisms (Escherichia coli PHAGE MS2 (ATCC-15597-B1)) as per ISO 21702:2019 Standard
- Anti-fungal activity and efficacy tested under lab conditions on representative organisms as per ASTM G21:2015 Standard
- Anti-algae activity and efficacy tested under lab conditions on representative organisms (Chlorella pyrenoidosa and Scenedesmus abundans (1:1)) as per ASTM G29 Standard
- *Certified by independent third party NABL accredited lab. Actual performance may vary due to different environment and usage.

CUSTOMIZED LARGE WATER STORAGE SOLUTIONS FOR VARIOUS INSTITUTIONS

Railway Stations | Hospitals | Hotels | Educational Institutions | Commercial Complexes
Defence Areas | Malls | PWD | CPWD | Data Centres | IT Parks | Other Public Utilities

Preferred installation under various Jal Jeevan Mission

Why Sintex Pure Community Panel Tanks are superior to RCC Tanks?

- Easy to install, move, and clean
- Hygienic Water Storage: Offers safer, cleaner water compared to concrete tanks, with protection from algae growth and leaching
- Designed to last up to 50 years with leak proof operations
- Comprehensive Solution by Sintex:

Rooftop inspection to assess site details

Customized design based on capacity, space, and cost requirements

Professional installation as per the tailored design

Easy steps to get Community Panel Tank for your premises

- Express interest about Community Panel Tank with your nearest retailer or reach out to us using the QR code
- Provide your storage tank requirements
- Fix site inspection with Sintex team by paying a token advance payment to Sintex BAPL
- Post site inspection, get a detailed storage tank recommendation customised for your premises.
- Final payment & tank installation

- Final payment & tank installation

WATER TANKS MYTHS & FACTS

MYTH

Local tanks offer exact water storage capacity as promised.

FACT

Local competitors' tanks provide 10% to 15% less water storage than what they claim. Whereas, Sintex tanks offer exact water storage capacity as promised.

MYTH

Only virgin (non-recycled) plastic is used in making all water tanks.

FACT

Competitors' tanks often use recycled plastic, which may contain harmful chemicals like lead and phthalates. Sintex tanks are made from 100% virgin plastic, ensuring total safety.

MYTH

Competitors' tanks are heavier, so that means they are sturdier too.

FACT

Local brands add calcium carbonate and fillers to their tanks, making the water hazardous. In contrast, Sintex tanks are designed to be lighter, stronger, and safer.

MYTH

The harder the tank, the more durable it is.

FACT

Overhead tanks must expand and contract with water levels and temperature changes. Rigid tanks can crack easily, but Sintex uses LLDPE, making them more flexible and durable.

MYTH

Detergent is good enough to clean the water tank.

FACT

Using detergents for cleaning water tanks can be hazardous due to the chemical residues they leave behind. Switching to Sintex KleanKit can help ensure your water storage tanks are clean and safe for use.

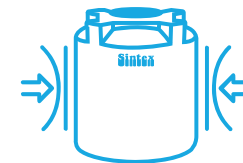

MYTH

Our competitors make tanks using only food grade plastic.

FACT

Many competitors use recycled plastic, which may contain fillers, toxins, and carcinogens like phthalates. Sintex tanks, made from food-grade plastic, ensure safe and hygienic water storage.

MYTH

Our competitors sell tanks that have 4, 5, 6 or even 7 layers. This means they are much stronger.

FACT

More layers in a tank don't equate to increased strength. Additional layers provide no real benefits and can make the tank unnecessarily rigid and heavy.

MYTH

All non-black tanks of the competitors are UV stabilized like Sintex tanks.

FACT

Most competitors' non-black tanks lack complete UV protection, leading to algae growth and unhealthy water. In contrast, all Sintex tanks, whether black or non-black, are UV protected.

MYTH

The lid of a tank does not need UV protection.

FACT

As the topmost part of a tank, the lid requires UV protection more than any other surface. Competitors' non-black tanks lack UV protection on their lids, while Sintex is the trusted brand in the country to offer complete UV protection for non-black tank lids.

MYTH

Every black tank is a Sintex tank.

FACT

Remember the saying, "All that glitters is not gold"? This applies to Sintex as well. Customers may go to buy a Sintex tank but end up with a competitor's product. All Sintex tanks feature our logo, so customers should ensure they look for it.
