The Art of
the Intention

Focus & Mood

Artize has always believed that a bathroom is more than a room. It is a personal sanctuary where form and function must effortlessly intertwine and elevate the bath experience.

In our latest collaboration with global masters Matteo Thun, Antonio Rodriguez, and Michael Foley, we explore the two most vital states of the modern soul - the need for sharp, unwavering focus and the desire for a transformative, rejuvenating ambient mood.

The Designer's Touch

This dual mastery is born from a fusion of art and engineering. Matteo Thun and Antonio Rodriguez bring an ethos of authentic elegance to the faucet collection, while Michael Foley provides the human-centred sculptural ceramics that ground these experiences.

Together, they ensure that whether you seek the precise form of Aris or the calm presence of Aura, your daily life is always **#BornFromArt**.

A black and white photograph of two men, Matteo Thun and Antonio Rodriguez, walking towards the camera on a paved path. They are both smiling and wearing glasses. Matteo Thun, on the left, is wearing a dark blazer over a light-colored checkered shirt and dark trousers. Antonio Rodriguez, on the right, is wearing a dark blazer over a light-colored shirt and light-colored trousers. The background shows a building with a large arched window and a car parked nearby.

Matteo Thun

Since 2003, Antonio Rodriguez and Matteo Thun have mastered the art of fusing aesthetics with functional innovation. Whether in architecture, product design, or interiors, their award-winning work resonates deeply, evoking sensory delight and emotional connection.

foleydesigns

The mind behind a dynamic, multi-disciplinary design studio, Michael Foley leads a talented team crafting cutting-edge solutions redefining the way we indulge, experience and interact with the world.

Your morning is a statement of refined taste, a time to sharpen your perspective for the day ahead. Aris is designed for these moments of slender precision.

Aris

Slender Precision. Balanced Form.

With its slimline proportions and clean silhouette, Aris removes the noise of the world, leaving only a study in balance. Every interaction is accurate, measured, and consistent, mirroring the mental clarity required to master your craft.

It is a sculptural classic that rewards the eye and steadies the hand, allowing you to find your centre in a minimalist and sensual design language.

Material. Form. Balance.

Natural textures meet engineered precision to create a quiet sense of balance. Every surface, edge, and finish is designed to bring a feeling of calm into modern spaces.

The Mood of Aris

A contemporary profile that feels almost impossible in its slimness. Aris is a study in balance.

Aris ceramics provide the perfect structural canvas for the faucets' slender precision to result in a bathroom that is both expressive and composed.

When the sun sets, the
desire for serenity begins,
and the home must shift
from a place of work to
an oasis of calm. Aura is
the curator of this
relaxing vibe.

Aura

Distinctive Simplicity. Authentic Character.

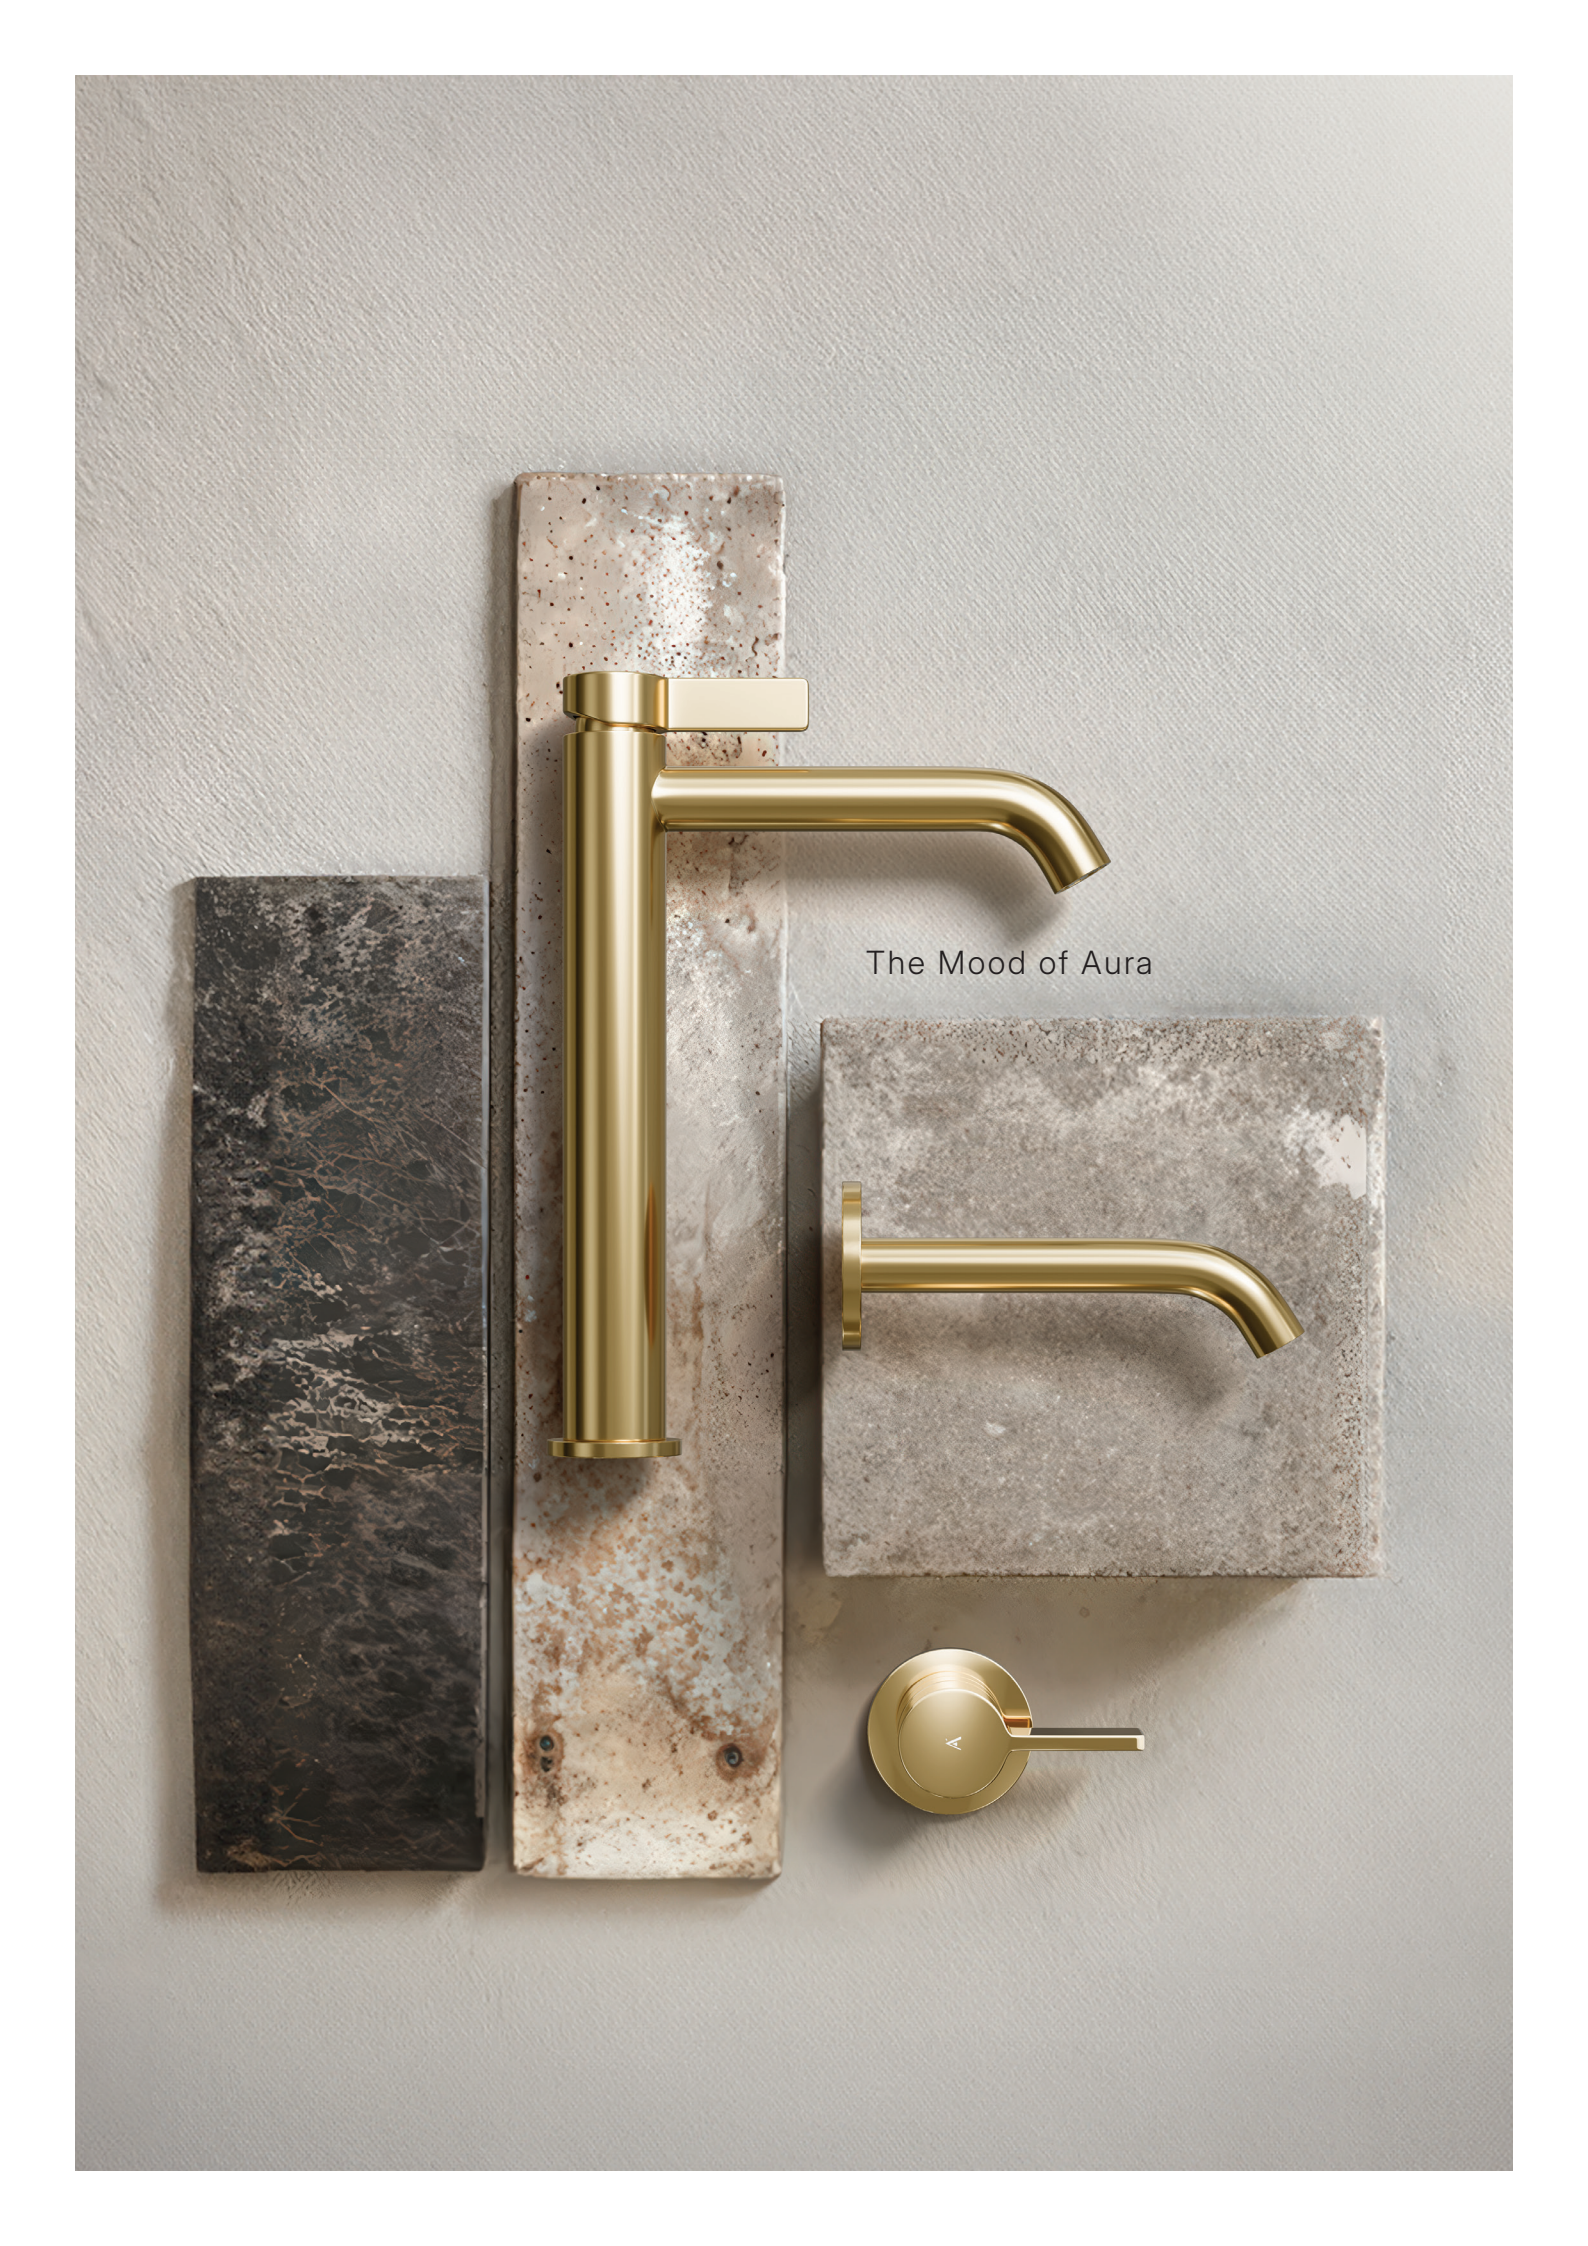

Defined by a fluid union of forms and essential geometry, Aura creates a calm and elegant character that resets the energy of your space. Its smooth and controlled water flow is designed to be felt as much as seen, offering a subtle tactile experience that humbles the senses.

Texture. Precision. Calm.

A composition of natural stone and brushed gold finishes, shaped with architectural clarity. Designed for spaces where every detail matters and simplicity becomes a statement.

The Mood of Aura

Aura's ergonomic ceramics complement the fluidly proportioned faucets, transforming conventional spaces into havens of tranquillity.

The curvature of the collection is carefully considered to make the water flow feel smooth and controlled, instantly shifting the vibe of your sanctuary.
