

we design
tools that help
people become
more efficient
at home

More than ever, people expect products to be responsive, adaptive and effortless. It started with smartphones and computers. Now we leverage technologies to bring greater functionality to normal everyday products. We know we have succeeded when they fit seamlessly into modern life.

tools for efficient living

Day to day life has room for improvement. That's the logic behind Simplehuman. Many activities in our daily routine are so basic that we take them for granted. Washing our hands, cleaning up after a meal, prepping our appearance. Through innovation and new technologies, we find ways to streamline these simple tasks. We call our products tools for efficient living.

tru-lux

typical light

see yourself in the best light

Under the wrong lighting, makeup colours can fool you. With a colour rendering index (CRI) of 95, our tru-lux light system closely simulates natural sunlight's full colour spectrum to show every detail so you'll always know when your makeup is colour-correct and flawless.

travel case

ultimate vanity centrepiece

Our sensor mirror trio is like having three mirrors in one. One side is 5x magnification so you can view your entire face in exceptional detail. And with a quick, easy flip to the other side, you get a 1x true view with a 10x window for detail work like applying eyeliner — all the magnifications you need for pro-quality makeup application.

- 3 views in one mirror**
5x magnification on one side, flips to 1x and 10x magnification on the other.
- tru-lux light system**
At 800 lux and with a colour rendering index (CRI) of 95, the tru-lux light system is more than twice as bright and more closely simulates natural sunlight than the next best.
- sensor on/off**
Automatically lights up as your face approaches the mirror.
- touch-control brightness**
Fast, intuitive control over a continuous range of brightness from 100 lux to 800 lux.
- dual light settings**
Check your look under full sunlight or true-to-life candlelight.
- 5 year warranty**

take the best light with you

Our sensor mirror fold lights up automatically as your face approaches. Its tru-lux light system simulates natural sunlight, allowing you to see full colour variation. The distortion-free mirror is 10x magnification — ideal for close-up work like tweezing or lipstick application. The mirror folds up and stores easily in the included padded travel case.

- tru-lux light system**
At 550 lux and with a colour rendering index (CRI) of 90, the tru-lux light system is more than twice as bright and more closely simulates natural sunlight than the next best.
- 10x magnification**
Extremely close-up view for detail work like tweezing and applying eye makeup.
- folds down flat**
Easy to store and comes with convenient padded travel case.
- rechargeable**
One charge lasts up to 5 weeks.
- 5 year warranty**

brighter, clearer,
colour-correct view

Lights up automatically as your face approaches. Tru-lux light system simulates natural sunlight. Touch-control brightness bar gives you fast, intuitive control over a continuous range of brightness. It also has a candlelight setting, so you can check your look in low light before you go. 5x magnification — ideal for providing exceptional detail while still allowing you to see your entire face at once.

open can

Life is messy! That's why we develop sensor technologies that offer quicker, cleaner access to our cans. Whether you want to cut down on germs or footsteps, our goal is to remove friction and effort from the task.

automatic, effortless, and hassle-free

Our rectangular sensor can with voice control opens at the sound of your voice. Just say, “open can” and the lid opens automatically, so throwing rubbish away is quick, efficient and hassle-free. It also has a motion sensor that opens the can with a wave of your hand and is smart enough to adapt to you and the surrounding environment — no false triggers, no unexpected lid closures.

- just say “open can”**
Three microphones triangulate sound for voice recognition accuracy, even in loud, busy environments.
- motion sensor**
Infrared fields sense the areas above and in front of the can so it opens automatically with just a wave of your hand.
- smooth, steady power**
A planetary gear system transfers speed to torque for smooth, consistent lid operation.
- whisper quiet**
At 52 db, our bin is 50% quieter than the competition’s.
- neat and secure**
Stainless steel liner rim flips up for a quick and easy liner change, then closes over the liner to hold it tightly in place and keep it hidden from sight.

a perfect fit
custom fit liners

One size does not fit all! Our liners are designed to fit each of our cans perfectly so there is no messy bag overhang or bunching — and they never slip. Extra-thick plastic and double-seam construction prevent rips and tears. Strong drawstring handles make the liners easy to lift, tie, and carry.

Refill packs dispense liners one at a time — no perforations or unravelling — and are designed to fit perfectly inside cans with our built-in liner pocket system.
